Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

* Refer to the General Information section of this label.

Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered label.

This label must be in the possession of the user at the time of pesticide application.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, AND/OR ILLEGAL RESIDUES.

General Information

As a conditional-use provision of this 24(c) labeling, the application of Supracide 2E on timothy or timothy-alfalfa stands intended primarily for haying, green chopping, or grazing for horses shall be restricted to the State of Idaho.

Timothy or Timothy-Alfalfa Stands

Apply at a rate of 2 pts to 4 pts per acre in a minimum of 10 gallons of water per acre with ground equipment or 2 gallons of water per acre by air.

Chemigation: Do not apply this product through any type of irrigation system.

Bees: This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or broadleaf weeds. Do not apply this product or allow it to drift to blooming alfalfa or broadleaf weeds. Apply as a pre-bloom spray, or control bloom prior to application.

Restrictions: To avoid illegal residues, (1) Do not apply within 21 days of harvest. (2) Do not allow any animal which will enter the human food to chain to graze on Supracide-treated timothy or timothy-alfalfa. (3) Do not apply Supracide 2E at a rate exceeding 4 pints per acre (1 lb. ai/A) per cutting.
